# CONTROL STICK FUNCTION

The Nintendo® 64 Controller contains a Control Stick which uses an analog system to read the angles and direction of its movement. This allows subtle control that is not possible using the conventional Control Pad.

When turning the Control Deck power **ON**, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned **ON**, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (as shown in the picture on the left) then press **START** while holding down the **L** and **R** Buttons.

The Control Stick is a precision instrument, make sure not to spill liquids or place any foreign objects into it.

# LOADING

1. Make sure the power is **OFF** on your Nintendo® 64 Control Deck.
2. Insert your NFL Quarterback Club™ 2001 Nintendo 64 Game Pak™ into the Control Deck as described in the instruction manual.
3. Insert Controller into Controller Socket 1.
4. Note: NFL Quarterback Club™ 2001 is for up to 4 players. All players should insert their Controllers into the proper controller socket at this time.
5. If you wish to save a game, insert a Nintendo® 64 Controller Pak™ (sold separately).
6. Slide the **POWER** switch to **ON** (Important: Make sure not to touch the Control Stick when doing so).

This game is compatible with the Controller Pak™ and Rumble Pak™ accessories. Before using the accessories, please read the Controller Pak™ and Rumble Pak™ accessory instruction booklets carefully. Follow on-screen instructions to determine when you should insert or remove the Controller Pak™ and Rumble Pak™ accessories.

This game is compatible with the Nintendo® 64 Expansion Pak™. Before using the Nintendo® 64 Expansion Pak™, please read the Nintendo® 64 Expansion Pak™ Instruction Booklet carefully as it contains important information about the safety and use of this accessory. Nintendo 64® Game Paks™ displaying the Nintendo® 64 Expansion Pak™ icon will take advantage of the additional memory features of the Nintendo® 64 Expansion Pak™. Look for this icon on specially designed games.

# INTRODUCTION

Welcome to NFL Quarterback Club 2001! This year promises to bring the best football game into a new millennium. **NFL QBC 2001** combines a crop of great new features like the addition of the "Shoulder Charge" to your offensive arsenal for busting through the line, pass icons on run plays (it really throws your opponent off the scent!) and an improved catching and play select system as well as a whole networks-worth of camera angles!

Playing a season can be grueling. I like to warm up in Practice mode, stretch out in a few Exhibition games and then I'm ready to march downfield to the Playoffs. After that its on to the big game and, hopefully, another ring! But, if you don't grab that ring, you can re-create your winning situation in **QBC 2001's** Custom Simulation mode where you call all the shots! I have a few game memories that I'd love to replay. If you have a few or, if you're a history buff, you can recapture bygone eras in the Historic Simulation mode.

So, grab your pads and cleats and join me on the gridiron for some **NFL QBC 2001** action!

## PLAYING A GAME COIN TOSS

Once you take the field, a coin toss determines which team will kick and which will receive. The coin toss is called in the air by the visiting team. The team who loses the toss chooses which goal they wish to defend.

## KICK OFF

Press the **A BUTTON** to put the kicker in motion. You can aim your kick by moving the **CONTROL PAD LEFT, RIGHT, UP** or **DOWN**. Kick power is determined by when you press the **A BUTTON** in relation to where the bouncing meter is at the time. Follow the same procedure for punts, field goals and extra points.

## CALLING PLAYS

The play select screen is divided into 3 Defensive and 3 Offensive play calling boxes and a game status area showing the current game situation (down, yards to go, time remaining, etc.). If you have created a custom playbook, you can access it from this screen. In multiplayer games, the player with the lowest controller number controls the offense and the next lowest controls the defense.

## To Call a Play

- Scroll formations and plays using **CONTROL PAD/STICK LEFT** or **RIGHT**.
- Press the appropriate control (**C ▼** or **C ◀** or **C ▶** **BUTTONS**) for the formation and play you wish to use.
- Pressing **UP** on the **CONTROL PAD/STICK** will back out of the chosen formation.

**NOTE:** You can flip plays by pressing the **Z BUTTON**.

Once both teams have called plays, the teams break their huddle and go to the scrimmage line.

## USING A CREATED PLAYBOOK

Once you have created and saved a custom playbook (see page 17), it will be available on your list of playbooks and can be used at anytime for any team.

### To Use A Created Playbook

- Access In-Game Options on the Game Setup screen.
- Scroll to either the Away Playbook or Home Playbook.
- Press **LEFT** or **RIGHT** on the **CONTROL PAD/STICK** to highlight the desired playbook.

## Controlling Players

You can switch control of players by pressing the **C ▲** or **C ▼** **BUTTONS** to toggle through the players.

## Passing

The passing system allows you to control both how hard a pass is thrown and exactly where it's thrown. This allows the quarterback to respond to pass coverage dynamically. Each pass tag corresponds to a particular receiver. Tap the button of the receiver you wish to throw to for a bullet pass. Hold the button down longer for a lob pass. Once the ball is thrown you will have control of the receiver.

# GAME TYPES

## PRACTICE

Let's shake the off-season cobwebs from your game. Start by setting Practice options:

**Offense** Toggle to the team of your choice or offensive scheme of your choice, including classic historic offenses like the '88 49ers and custom schemes of your own devising!

**Defense** Choose to run plays without a defense to challenge you (None), or against any defensive scheme in the NFL!

**Field Position** Select which yard line you'll run plays from. The **UP** arrow indicates you're in enemy territory, **DOWN** that you're in your own half of the field.

**Hashmark** Place the ball at the left, center or right of the field.

**Offense Playbook** Select the offensive scheme of your choice.

**Facility** Choose an Indoor or Outdoor facility.

**Weather** In outdoor facilities, you can select the weather conditions or let the CPU pick for you (auto).

Once you've set your options and chosen which team you wish to control, you'll see the playbook screen, with a number of appropriate plays to choose from. Make your choice, then it's on to the field to master your attack!

## EXHIBITION

A one-game contest between any two teams, Exhibition games don't count towards your record. Many of the screens, features and options available in this mode pertain to other modes, too, so take a moment to learn these basics. After selecting Exhibition, you'll come to the team select screen, showing two teams and their respective NFL rankings in the most important offensive and defensive categories. Toggle through teams by pressing **DOWN** or **UP** on the **CONTROL PAD/STICK**. Alternate team select areas by pressing **LEFT** or **RIGHT** on the **CONTROL PAD/STICK**.

**Importing a Created Team** If you want to bring a saved custom team into play, press the **R BUTTON** at the Team Select screen. At the Restore Team screen, you can select from any one of up to 3 custom built teams. Once your teams are selected, choose which one you wish to control.

## GAME SETUP SCREEN

Before you hit the field, you can access an array of items on the Game Setup screen, which is similar in every game mode. Some options may not be available, depending on game type and situation. For example, you cannot set weather in a domed stadium or in Season mode.

## Start Game

Hit Start Game now to jump into a game with default settings or take the time to set the following options and then hit Start Game when you're done.

## In-Game Options

**Weather** Set the game conditions in outdoor stadiums, or have the CPU choose (Auto).

**Qtr Length** Set 1, 2, 5, 10 or 15 minute quarters.

**Time of Day** Lets you choose a Day or Night game.

**Difficulty** Play at Rookie, Pro or All-Pro skill levels.

**Player Energy** When ON, players' energy diminishes with playing time and activity. Low energy often leads to injuries.

**Clock Speed** Use Realistic, Accelerated or Turbo game clock speeds.

**Player ID** The on-screen players can be identified in different ways.

**Injuries** When ON, players are automatically subbed out when injured, and remain unavailable until the injury heals.

**Celebrations** When ON, your players can gloat with abandon.

**Focus on Ref** When ON, the referee is shown whenever a call is made.

**Home Playbook** Use the home team's usual playbook (default), or use any other team's scheme.

**Away Profile** See Home Profile.

**Penalties** Set a wide range of penalty calling sliders from OFF (never called) to STRICT (called whenever possible).

**Sub Players** You can substitute players into Offensive, Defensive and Special Teams formations. You may wish to substitute a healthy player in for an injured one, or to have a particular player sub into a particular formation (for example, put a very quick receiver into pass formations). First, select which club to substitute for, then the team type (Reset All resets rosters).

- **L or R BUTTON** to cycle through formations.
- **Z BUTTON** to toggle between sub out and sub in areas.
- **UP or DOWN** on the **CONTROL PAD/STICK** to highlight players.
- **A BUTTON** to sub highlighted players into current formation.
- **C ▼ BUTTON** to sub into all formations.

# NEW SEASON

Do you have what it takes to claw your way to Super Bowl victory? Season play proves that every week counts in this game of inches. You can play each and every game every week, simulate games and play only the choice match-ups, manage your roster, create and import custom players, team and playbooks and lots more!

## SEASON SETUP

Before you get into a season's worth of play, you'll need to select a few options.

**Play Pre-Season** This option can be set to **ON** or **OFF**. When **ON**, your team will compete in 5 exhibition games before the season begins. You can choose to simulate all the games for a particular week or not.

**Player Development** When **ON**, this feature tracks each player's performance in several categories during each game and rates them by how they did. Categories reflect the demands of each position. The rating is cumulative and may result in a player improving from good performances or getting worse from bad performances.

**Player Streaks** When set to **ON**, players will get hot or cold depending on their game performance. A great performance one week makes a player more likely to pull off great moves in the future, while a poor performance can mean a slump is in your future!

## SEASON MENU

After the Season Setup screen, you'll go to the Season Menu, with a complete range of choices. Note that if Pre-Season is set to **ON**, you'll see the same menu, but your choices will relate to Pre-Season play. Once you've selected a particular option, press the **C ▲ BUTTON** (Help) for control details for that option.

**Weekly Schedule** This screen details all the scheduled pre-season or season games week by week. You can play or simulate any of the games for any given week.

**Team Schedules** View a list of each team's schedule, along with win/loss record for any weeks already past.

**Team Standings** View teams standings within each conference and division to date.

**Power Rankings** Power rankings gives you a good indication of which team has the power to go all the way!

**Season Stats** All the stats you could ever want, updated as the season progresses.

**Season Leaders** See at a glance who the top performers in all stat categories are.

**Team Stats** Complete team stats for the season thus far.

**Injured Players** If injuries are turned **ON**, a visit here will tell you the current status of injured players on any team.

**Weekly Match-ups** Compare the rankings of each pair of teams scheduled to play on a given week.

**Managing Your Rosters** Draft, trade, and sign players and access custom creation features. See Managing Your Rosters (page 15) for details.

**Quit Season** Quit the current season and return to the main menu.

## PLAYING A SEASON

Once you've selected which game(s) you wish to play or simulate (using the Weekly Schedule option), press the **A BUTTON**. The computer will simulate any games you didn't mark to play. To mark a game for play, press the **C ▼ BUTTON**. You will then go to the controller select screen, where up to 4 players can decide which team they wish to control (by moving their controller under the team's logo). If you've marked multiple games to play in any given week, they are played in the order presented.

## GAME SETUP

After selecting which team you wish to control, the Game Setup screen appears. Here you can set various options (these apply only to the current game). Select Start Game and press the **A BUTTON** to begin playing.

## NEW PLAYOFFS

For those who need an immediate adrenaline rush, jump straight into post-season play. Try to work your way up the playoff ladder to grab yourself a Super Bowl Ring! Playoff levels from wild card all the way to the Super Bowl.

## TO PLAY ALL WEEKS WITH A PARTICULAR TEAM

- Highlight the box next to a particular team and press **C ▼** **BUTTON**.
- Press **A** **BUTTON** to play games.

Remember, you'll have to select your team for each week you want to simulate. Following Playoff game selection, you will go to the Controller screen to select a team to control.
